

DISASTER PLAN

The goal of a disaster plan is to maintain a level of accountability for any defendant/offender that has been classified as a sexual offender, and/or any defendant/offender that has a pending case classified as a sexual offense. In the event of a disaster, contingency planning is critical for supervision. Therefore, the United States Probation Office requires that you develop an emergency evacuation plan. In the event of a disaster, you must notify your probation officer in advance of your relocation and confirm compliance with the disaster plan. A message may be left; however, continued efforts should be made to speak with your officer directly. If applicable, you must notify the local sheriff's office within 48 hours of the relocation.

DEFENDANT/OFFENDER NAME: _____ Date: _____
